December 7, 2015

System Members,

The McLean County Area EMS System (MCAEMS) is excited to announce that we have partnered with Heartland Community College (HCC) and are now offering EMT-Basic classes through the college! As a result of this partnership, beginning in January 2016 EMT-Basic classes will begin at HCC. Because we are partnering with HCC students registering to take a class at Heartland will be eligible to receive college credit along with all other aspects of being enrolled as a college student. While the classes will be held at Heartland, MCAEMS instructors will be teaching all aspects of the programs.

Our office will no longer be facilitating the registration or financial portions of the class, therefore if you are wishing to enroll in one of these classes this will need to be done through the registrars office at Heartland Community College.

We are very excited about this partnership, and look forward to working with you with your educational needs!

Sincerely,

Jon Dassow EMT-P, LI
EMS Education Coordinator
McLean County Area EMS System
