Subject: Hospital Equipment Exchange

This is just a friendly reminder, that while exchanging equipment at either ABMC or SJMC please remember that this is supposed to be a one for one equipment exchange, and only for patients brought to that particular facility.

The equipment exchange process exists as a convenience to EMS providers in order to get rigs in service sooner. This is just a friendly reminder to please ensure that we are following the one for one exchange process.

Please do not take supplies from ABMC later on for a patient taken to SJMC earlier and vice versa. By exchanging equipment in the moments after patient delivery we can ensure that this process is followed.
