MEMORANDUM

TO: McLean County Area EMS System Participants

FROM: Gregory Scott, R.N., B.S., EMT-P
EMS System Coordinator

DATE: September 21, 2006

SUBJECT: Introduction

I wanted to write a short memo to formally introduce myself to everyone within the McLean County Area EMS System. I have enjoyed over 20 years of experiences within Emergency Medical Services (EMS) here in Illinois. There have been many transitions and changes that have occurred during those 20 years that have continued to strengthen our profession. I have worked in virtually all capacities of EMS and have learned many valuable lessons during my tenure in each role.

There are many great things that will be happening in the near future at the McLean County Area EMS System. These things will only happen if we all work as a team to continue to advance EMS within each of our communities. I know that the goal for each of you is to provide the most proficient and timely care to the patients' sides during their time of need.

I desire the EMS System office to serve as a resource for each of you and that we work collaboratively toward solving problems once they are identified. There will be projects along the way that will focus on present issues as well as planning for the future direction of the EMS System. There will be opportunities for participation and input along the way and I strongly encourage each of you to take advantage of these times of change in order to mold and nurture the future of the McLean County Area EMS System.

As a unified team we will strive toward perfection since every time the emergency phone line rings and the wheels roll on a call, someone will be impacted during their most crucial time of need. Remember that EMS providers are a crucial link in the chain of survival.

I look forward to meeting each of you throughout the coming months and working side by side on improving those areas that need improvement while continuing to strengthen those areas that already are working proficiently. Please feel free to contact me at any of the numbers below if you need my assistance.
